Positioner BASIC**

Our process valve experience is one of the main pillars of our success. You can bet on our ongoing, practically-oriented expansion of our competence for groundbreaking innovations. Reliable and safe shut off, releasing, dosing, distributing or mixing gases and fluids. Whether you need a single component or a complex system solution, we always focus on optimum process reliability, efficiency and economy.

Note:
To be able to use the 3D functionality of this interactive 3D product catalogue, you need a Adobe® Reader, at least version 8. Choose one of the valve types by left clicking the symbol, then the 3D document is opened.
